**Subject: SFS-19-62 Verification 2018-2019 Non-Response Rates**

The 2018-2019 verification non-response rates have been posted to the CNP website. The verification method to be used for School Year 2019-2020 is dependent on each School Food Authority's (SFA) non-response rate from School Year 2018-2019. SFAs with a non-response rate of less than 20% may use any verification method [Standard/Basic, Alternate 1 (Random), Alternate 2 (Focused)] in school year 2019-2020. SFAs with a non-response rate of 20% or greater must use the Standard/Basic method for verification in School Year 2019-2020.

A USDA Resource titled, "Strategies to Improve Response Rates in Verification" has been posted to the CNP website to assist each SFA in the Verification process for SY 19-20.

*\*Reminder that the Standard/Basic method is a 3% sample of free and reduced apps, utilizing Error Prone Applications.*

Refer to the CNP website for further information (<http://cnp.doe.louisiana.gov>).
